Special Edition, Inc.

Home of the Beck Speedster

Special Edition, Inc. was formed in the early 1980's and has been instrumental in the evolution of the Specialty Automotive industry. By 1986, Kevin Hines of Special Edition, Inc. and Chuck Beck of Beck Development formed a partnership and the concept of easy to complete, high quality replication was born.

Special Edition, Inc. operates a modern 18,000 square foot manufacturing facility in Northern Indiana. Visitors are always welcome, just call ahead. Our showroom is open Monday to Friday from 8AM to 5PM. Weekend visits are welcomed, just set an appointment by calling during regular business hours.

Our engineering methods and unparalleled design criteria combine to produce a superior product that will provide years of driving excitement and has historically held its value like no other Specialty Automobile of which we are aware.

Deluxe Pre-Assembled Body Package

Starting at \$31,995

F.O.B. Bremen, Indiana **What is it?**

The “Deluxe Pre-Assembled Body Package” program provides the specialty automotive enthusiast with a quality product, in a complete and comprehensive package. This alternative affords a savings over the “Roller” or “Turn Key” versions by allowing you, the customer, to supply a portion of the labor relating to the final assembly procedure, yet does not demand an inordinate amount of specialized skills or professional assistance such as painting, wiring, and upholstery.

This package includes ALL of the following:

- The complete hand-laid fiberglass body, painted with high quality automotive base coat/ clear coat. The doors, front hood with support rod, and rear deck lid with support rod are hinged, latched, weather stripped and fully adjusted.
- The body comes pre-mounted to a 2”x4” tubular steel frame that is an integral part of the body/chassis system. It includes double A frame front suspension with adjustable coil overs, manual rack and pinion steering, and VW IRS rear suspension with adjustable trailing arms. *Tubular steel is an extremely strong method of construction and gives the Beck Speedster excellent torsional rigidity resulting in crisp handling, consistent door gap, and superior fit and finish. It is a logical and preferable construction method to “belly pan” mounted kits.*
- The self-parking, 2-speed windshield wiper system is completely installed and wired.
- All of the wiring for major components is completely installed. This includes the 3-gauge cluster, all switches, relays, engine harness, lighting and a complete fuse panel.
- The steering column with turn signal, emergency flasher and wiper switch is installed.
- The convertible top with steel scissor frame is completely assembled, installed, and operational. Matching 5mm Lexan side curtains are also included.
- Full leather interior is complete including door panels with full-length map pockets, adjustable bucket seats, dash, leather wrapped steering wheel, shifter and parking brake boots.
- The interior is completely carpeted, as is the front storage area.
- The accelerator, clutch, heater control, and parking brake are installed.
- The shift mechanism is complete to the nose cone access panel. ○ The fuel tank, gas cap, and brake reservoir are installed in the front compartment. ○ Dual circuit master cylinder with all brake lines installed. ○ Complete pedal assembly is installed.

The “**DELUXE PRE-ASSEMBLED BODY PACKAGE**” is extremely complete. The builder need only supply the engine of his choosing, a transaxle, minor suspension components, wheels, tires, fluids, lighting, and some hardware (all available in the optional packages), some basic mechanical ability and approximately 25 to 30 hours of assembly time.

Prices are subject to change without notice. A \$5,000.00 deposit must accompany all orders. Please call for availability.

DELUXE “ROLLER” PACKAGE

Starting at \$45,565(less engine)

F.O.B. Bremen, Indiana

What is it?

The “Deluxe Roller Package” comes “rolling” to your door, ready to install your engine.. This package is ideal for someone who has a very specific engine supplier or desire to install a unique type of power train (i.e. battery operated) into our Beck Speedster.

This package includes ALL of the features of the “**Deluxe Pre-assembled Body Package**”, plus the following items:

- All 3 optional kit completion packages
- A 4-Speed manual transaxle of your choice. (All transaxles are the swing axle style but may be modified with high performance parts, a variety of gear sets, and upgraded from drum to disc brakes for an additional charge.)
- The brake system is complete and operational, as is the parking brake system. Fine tuning of the alignment is still be required.
- The steering components are completely installed and operational. ○ Head & taillights, turn signals and license plate lights are installed. ○ The engine harness is in place and ready to be attached to the engine of your choosing. ○ A set of 5 tires are mounted and balanced. Tire brands vary with supply availability. Upgraded tires available at additional cost.
- The side & rear view mirrors are installed, along with the horn grills. ○ “Speedster” badges and body side moldings are also installed.
- Other optional items may be ordered and pre-installed as well. Please see the MSRP sheet for a list of our most popular add-ons.

Pricing Breakdown:

Deluxe-Body Package Aircooled.....	\$31,995
Roller Package Assembly Fee.....	\$4,800
Standard 4-speed manual Pro Street (estimated)	\$3,000
3 completion parts packages & partial Factory Assembly.....	\$4,275
Wheel and Tire Package (5).....	\$1,495

Total: \$45,565 (less engine)

How will I get my car?

This package can be transported by an automotive carrier service. They generally charge a small additional fee for handling “non-runners”. Please call for an estimate.

Prices are subject to change without notice. A \$ 5,000.00 deposit must accompany all orders. Please call for availability.
